

Market

EUT is celebrating its first decade of existence. Since its inception in 2006, EUT has continuously engaged in dauntless efforts to reform, restructure and perfect itself, paying special attention to initiatives and processes which ensure top quality graduation standards for our students. The high standards of the higher education institutions are crucial not only in terms of supply and realization of quality education programs, but also in terms of public establishment and acceptance of future professionals in the labor market. Our mission is to offer top quality. By doing so, our institution has demonstrated its own openness to immense progress, drawing on positive experiences and examples of more developed systems. Our main goal is to prepare the students from the EUT to face the life challenges in every field, to help them become competent actors and not only observers of the growth and the management of their personal life.

Achievements

European University of Tirana is ranked the best or 34 state and private universities by

the German accreditation company, CHE Ranking University, which so far has carried out the sole international evaluation process in our country.

Thanks to our outstanding reputation in scientific research, teaching experience and lively campus life. More than 10000 students have chosen to attend their studies at EUT. We take great pride in more than 4000 EUT graduates who currently work for various private and public companies, institutions and non-profit organizations. They are the best hallmark of EUT top quality study programs.

History

European University of Tirana was founded by a group of young academics, journalists and managers in 2006. EUT was founded on the vision to become the leading university in the field of knowledge development in the Albanian society, thus aiming to become a center of excellence for academic preparation of students, but also a focal point of social, political, economic and legal expertise in our country and region through professional scientific research.

20 September 2006 EUT was founded,

(initially EUT Faculty of Law and Faculty of Social Sciences.)

27 February 2008 EUT Faculty of Economics was inaugurated.

21 January 2009 EUT was granted the official license for second-level program of studies. (First-level Master's Degree)

22 July 2009 EUT was granted the official license for third-level program of studies. (Second-level Master's Degree)

23 July 2009 Graduation ceremony of the first generation of EUT Bachelor students.

24 July 2009 Accreditation of EUT and its Bachelor programs.

2010 Graduation ceremony of first generation of EUT Master students.

14 February 2011 Accreditation of EUT Master's programs.

July 2011 EUT came top in the ranking process carried out by CHE University Ranking.

28 September 2011 Elevation of EUT status, from "private institution of higher education" to "university".

7 October 2011 EUT was granted the official license for doctorate degrees in the fields of economic, social and legal sciences.

May 2014 First EUT Doctorate Degrees

Products

Our top priority at European University of Tirana is the preparation of highly qualified students for the labor market but we also support them and follow their career development closely. European University of Tirana, a real leader in the Albanian education sector, takes great pride in its highly qualified academic staff, by far the most important asset in our long list of comparative advantages. The methodology of work at the EUT is based on acquisition of knowledge and creation of high quality professionals in the areas that are the subject of our study programs. The center of EUT education philosophy is the student, which is why our service, our knowledge and everything else revolves around the student. At European University of Tirana is a perfect functioning of the trinity: administration - academic staff - students, each having its own representative and supporting offices to enhance cooperation and effectiveness. EUT Alumni Association is our market image and our backdrop, which makes it easy for everyone to predict our successful future.

Recent Developments

EUT provides significant CONTRIBUTION TO DEVELOPMENT in our country through various research and scientific projects we have undertaken. We also offer our views

and perspectives in the field of public ideas, social analyses and future prognoses for our country's development. In short, all our research and scientific work aims at contributing to the development of Albanian society.

Research and Project Development Office at European University of Tirana offers professional expertise on a wide range of fields, especially in humanities, economy, law, education, communication, and information technology. The main aim is to promote and conduct innovative studies and policy-oriented research activities which boost development in all above-mentioned spheres.

Promotion

UET organizes 14 annually events that are held periodically over the year. Among them the most important are:

Winter Students School, Literary Razma Days, Albanian Studies Days, Philosophy Annuar's, Spring School for Career, Struga Weekend Design, Art Colony in UET etc.

Brand Value

EUT promotes values like quality and excellence; leadership and group work; freedom of intellectual exploration; fairness and integrity; transparency and accountability, as well as lifelong learning.

THINGS YOU DIDN'T KNOW ABOUT

EUT

EUT came top in the only ranking process carried out in July 2011 by the prestigious German company, CHE University Ranking.

More than 90% of EUT graduates are currently employed. EUT students and graduates are in high demand in the job market boards, incorporating important managers of public institutions and private companies, have become an integral part of EUT.

EUT campus size is more than 15 000 m², which include the service facilities, like modern lecture halls, labs, library, internet room, student canteen, as well as various other service areas, such as parking spaces and the garden.

More than 10 000 students have chosen to attend their higher education studies at EUT because of our outstanding reputation. EUT has become a beacon of higher education in Albania.

More than 3000 EUT graduates currently work in public institutions and private companies or various non-profits. Almost all of them maintain their relationship with their Alma Mater through EUT Alumni, the association of EUT graduates. This vast network of people and EUT staff is always ready and willing to help other EUT students. This is indeed the greatest advantage of EUT network.

About 5% of EUT graduates either are still attending or have already finished the other level of higher education studies in universities abroad. The European Credit Transfer System enables the transfer of your university studies in other European countries, as well as your diploma recognition in the respective countries.

More than 100 full-time professors teach at EUT. Ten members of our staff hold the highest academic title, Professor, and over 70 hold doctorate degrees. EUT academic staff includes well-known personalities in their respective fields, and a good part of the staff have had teaching experiences in prestigious Western universities.

EUT financial support policy aims at attracting and encouraging excellent students. Over 300 scholarships are granted every year on the grounds of Excellence, Social Promotion, or Talent and Leadership. EUT also facilitates the procedure of obtaining students loans at 0% interest rate through mutual agreements with the banking sector.
